It's summer here in Thailand! These are the hottest months but we are thankful for you, our supporters, that you were able to send us help to make sure we had enough air conditioning in our house. The kids also enjoy planting and working in the garden. The children are learning to grow their own food. We have many different

plants that provide food for us throughout the day. There is basil, eggplant, and cilantro. The girls are also starting to plant some avocado trees. We are very excited to help teach them these different things to help them walk into the Promised Land God has for them. Thank you so much for your continued support!

Donate

Thank you so much to our donors. So far this year we have been able to raise 30% of our yearly budget and 7% of our goal for a new house. We thank God that He has given us you to help us reach the needs of the children we rescue. We are excited to see what the future holds! The children send their love and thanks! Thank you for your continued support!

Meet Fah

Fah is one of our artsy girls. She loves to learn anything that deals with music. She has become great at playing the guitar and is currently learning how to play the drums. She also helps lead worship at church. Fah's dad moved away from her to live with a woman in southern Thailand. This left her mom alone with three children. Her mom went to church but instead of turning to God for help, she connected with someone from the sex industry and decided to sell her own body. She made a deal where she could get paid from it too since she volunteered. Fah's mom was trying to raise her up to become sex worker too but we were able to rescue her away from that. Fah doesn't hear from her parents but she now has parents in us at Promised Land Ministries. She is thankful for your support and sends her love.
